

ITEM 010050

Item 0100501 - HORIZONTAL CURB CUT

Item 0100502 - VERTICAL CURB CUT

DESCRIPTION

This item shall include trimming damaged ends of existing curb stones and cutting existing curb stones to a shorter length, both trimming and cutting to produce a new end which is square with the planes of the top and face of the curb. This item shall also include cutting curb stones horizontally in locations where the depth of curb stones must be reduced to clear obstacles or utilities.

MATERIALS

None

CONSTRUCTION METHODS

The contractor shall employ appropriate cutting tools to produce a clean, square, and plumb cut for a neat appearance when reset. For vertical cuts, the ends shall be finished so that when stones are placed end to end as closely as possible, no space more than one half inch wide shall show in the joint for the full width of the top or down on the face for 9". The remainder of the joint may break back not more than 4" from the plane of the joint. The Engineer may require the cut to be made with the stone in place in the ground. Horizontal cuts shall be made in a manner that allows for a 2" vertical clearance of the object or utility interference with the bottom of the curb stone. Horizontal cuts which exceed 1/3 the depth of the stone to be cut require the engineers approval prior to cutting.

In the trimming and cutting of damaged curbstones, the portion cut off shall be kept to a minimum.

Payment will be made under this item only for successful trimming and cutting done on existing curbstones on the site.

If in making a cut, the Contractor damages the curb so as to make it unusable, the Contractor shall furnish, at no cost to the City a piece of suitable curb cut to proper length to replace the damaged curb and payment will be made to the Contractor for one curb cut.

METHOD OF MEASUREMENT

This work will be measured for payment by the total linear footage of curb stones cut vertically or horizontally, accepted by the engineer.

BASIS OF PAYMENT

This work will be paid for at the contract unit price per each end for "HORIZONTAL CURB CUT" or "VERTICAL CURB CUT" squared and accepted, including all materials, equipment, tools, labor and incidental expenses.
