

**ITEM 010280**

**Item 0102801 - SAW CUT PORTLAND CEMENT CONCRETE**

**Item 0102802 - SAW CUT BITUMINOUS CONCRETE**

**DESCRIPTION**

This item shall include all labor, materials and equipment necessary to saw existing concrete and/or bituminous materials in the location(s) as shown on the plans, or as ordered by the Engineer.

**REFERENCED ITEMS**

None

**REQUIRED SUBMITTALS**

None

**MATERIALS**

Water used for this work shall be clean, potable, from City water mains or other approved sources.

**CONSTRUCTION METHODS**

The saw used for this item shall be heavy duty, self-propelled, suitable for sawing to a depth of at least 9". The saw shall be equipped with a water spray device and the Contractor shall provide a suitable water supply. The operator shall be an experienced concrete cutting saw operator. The Contractor shall mark the cutting line on the walk surface and provide all necessary guides to insure that the completed cut line is straight and true.

As a part of this item, the Contractor shall make provisions for disposal of waste from the cutting operation, he shall also clean all adjacent surfaces of water, concrete dust, etc., upon completion of the sawing operation.

In most instances, the Engineer will order sawing along existing dummy joints in concrete sidewalks and drives. In roadway concrete base materials, or bituminous surfaces the cut line will be as required by the engineer, or as shown on the details. In instances where sawing is to be done on cement concrete and bituminous concrete simultaneously, payment shall be made only under Item 0102801, Saw Cut Portland Cement Concrete.

**METHOD OF MEASUREMENT**

This work will be measured for payment by the number of linear feet of sawcutting completed and accepted.

**BASIS OF PAYMENT**

This work will be paid for at the contract unit price per linear foot for "SAW CUT BITUMINOUS CONCRETE" or "SAW CUT PORTLAND CEMENT CONCRETE" completed and accepted, including all equipment, tools, labor and incidental expense.
