REQUIRED SUBMITTALS

None

MATERIALS

Topsoil, fertilizer, seed, lime, and mulch shall conform to the requirements of Item 0106401.

Sand shall meet the requirements of section M.03 of the State of Connecticut, Department of Transportation, Standard Specifications for Roads, Bridges and Incidental Construction, Form 816, 2004.

CONSTRUCTION METHODS

The flagstones shall be carefully removed and the foundation re-graded as required using the existing material or new sand shall be added if necessary. The flagstone shall be re-laid to proper line and grade and they shall be firmly bedded in the foundation so that no voids occur underneath them and the joints shall be completely filled with sand.

The Contractor shall exercise care in the handling of the flagstones to avoid damaging them and shall use equipment necessary to lift the flagstones only from the edges of the walk and not between adjoining flagstones.

If damage to the flagstones does occur due to the Contractor's negligence, as determined by the Engineer, he shall replace them with flagstones in good condition at his own expense.

Where necessary the Contractor shall backfill along the edges with topsoil. The topsoil shall be graded to match the existing ground. Fertilizer, seed, lime and mulch shall then be applied in accordance with the Construction Methods of Item 0106401.

METHOD OF MEASUREMENT

Relay flagstone walk will be measured for payment by the number of square feet of walk completed and accepted by the Engineer.

BASIS OF PAYMENT

This item will be paid for at the contract unit price per square foot for "RELAY FLAGSTONE WALK" complete in place which price shall include all materials, tools, equipment, labor and work incidental thereto.
